Subject: MLPAComments: Marine Reserve Breakwater to Lover's Point

Dear Friends at Fish and Game,

Please accept this comment in your considerations regarding creating a marine park reserve. I strongly endorse and request your support for a marine reserve from the Breakwater to Lover's Point at the very least, (Package Two as it is known to the Department), then we may actually get an underwater park that we can all enjoy for many years to come. I have been visiting and diving in Monterey Bay now for many years. I frequently bring visitors with me to enjoy this beautiful marine area. Thank you.

Best Regards,
/s/ Leon
